- UL 1981 3<sup>rd</sup> Edition
- TAPI Integration
- ONVIF Video
- Crystal Reports

The Alarm Center® 2.0 has received “approval” for UL 1981, Standard for Central Station Automation Systems, 3rd Edition. SIS has added dozens of features to the Alarm Center® system to be compliant with the latest revision.

TAPI integration will allow dispatchers to initiate calls directly from the Alarm Center® Monitoring/Dispatch Module via your IP telephone phone system.

The 2.0 Video Integration Module includes compatibility with ONVIF Profile S for IP-based video systems.

A re-engineered reporting engine allows for enhanced user definable searches and alarm reports.
